EXCEPTIONAL QUALITY

At Goodman, we work for you

Thank you for your interest in the Goodman® and Amana® brands of heating and cooling systems. As we enter another challenging season in the heating, ventilation and air conditioning (HVAC) industry, I am proud of the successes, strengths and values that our company continues to deliver to our customers and your customers.

As a direct result of our multiple product offerings, a strong distributor network and sustainable dealer loyalty, Goodman Global Group, Inc. is now recognized as the largest domestic, privately-held manufacturer of residential and commercial HVAC equipment in North America. During the past decade, over 16 million of our heating and cooling units have been installed by some of the best dealers in the HVAC industry.

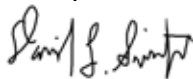

Every day we display our American Pride, because our manufacturing facilities are located in Tennessee and Texas. This is a tribute to the founding of the company. From day one, the company has focused on a common goal to produce high-quality HVAC equipment and deliver it at a refreshingly affordable price. We believe that our continued focus on this founding goal has contributed not only to our sales achievements, but to the success of the dealers selling and installing our products.

Our current product lines are supported by a myriad of enhancements, many exclusive to our brands:

- Single speed, variable speed and modulating gas furnaces (80% and 90+% AFUE)
- A unique heat exchanger design that has surpassed the industry's standard test
- SmartCoil™ 5mm condenser coils
- All-aluminum evaporator coils
- SmartShift™ heat pump defrost technology
- Factory-installed filter driers
- ComfortNet™ communicating control systems
- Dual Fuel packaged heat pump systems
- R-410A and uncharged R-22 condensing units

As you continue to learn more about our company, brand and products, I believe that you will find us to be the most focused, deliberate, and aggressive company in the HVAC marketplace with regard to the manufacture of high quality product and customer service.

Cordially,

David Swift
President and CEO
Goodman Global Group, Inc.

Outstanding Warranty protection

All functional parts in all Goodman brand residential equipment regardless of SEER or AFUE rating*.

If the heat exchanger fails to the original, registered homeowner during the first 10-years of operation, a new unit will be provided at no cost*.

If the compressor ever fails to the original, registered homeowner, a new compressor will be provided at no cost*.

*Complete warranty details available from your local dealer or at www.goodmanmfg.com. To receive the 10-Year Unit Replacement Limited Warranty, Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration not required in California or Quebec.

Every Goodman® brand indoor comfort product is built to the highest standards of the heating and cooling industry, and, in many cases, Goodman products exceed those standards. The high quality of our product limited warranties reflects the high standards of our manufacturing processes. As a heating and cooling contractor, our founder, Harold Goodman knew firsthand the concerns that homeowners expressed when it came to purchasing and installing a new central indoor comfort system. That's why all Goodman brand products provide what we believe to be some of industry leading warranty protection. Why would you settle for anything less?

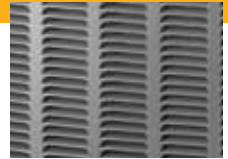

Americans have been relying on long-lasting Amana® brand products since 1934, when Amana, Iowa, native George Foerstner accepted the challenge of building a dependable beverage cooler. Since then, the Amana brand has enjoyed many firsts, including the first cold storage locker, the first nationally marketed upright freezer for home use, and the first portable countertop microwave oven.

The craftsmanship that goes into every Amana brand HVAC

product is reflected in the limited warranty coverage, which we believe to be one of the industry's best. From the technology behind our patented Million-Air™ Heat Exchanger to the inclusion of high-quality parts and components installed in our air conditioners and heat pumps, we remain committed to Amana's legacy of providing homeowners with heating and cooling products that are built to last.

 LASTS AND LASTS AND LASTS™

Indoor Heating and Cooling Systems

Envied

by Mother Nature

Air Conditioners

Refreshingly

Affordable and *Premium* Indoor Comfort

Goodman® and Amana® brand have central air conditioning systems that are perfect for any home. Even on the hottest days of the year, you can keep your home cool and comfortable while enjoying low energy costs with a high-efficiency Goodman or Amana brand air conditioner. Don't choose between affordability, durability, and optimum cooling comfort. Install a Goodman or Amana brand air conditioner and get all three. As you review the various Goodman and Amana brand air conditioners, remember that higher SEER numbers reflect the most energy-efficient systems.

Quality Features

- Up to 18 SEER Efficiency
- High-Efficiency Scroll Compressor
- Compressor Sound Cover
- Sound-Reducing Control Top
- Chlorine free R-410A Refrigerant
- Super Efficient Condenser Motor
- Steel Louver Coil Guard
- ...and more!

Heat Pump Systems

Heating and Cooling Comfort from a *Single* system

Enjoy year-round indoor comfort with a Goodman® and an Amana® brand heat pump. These units provide both cooling and heating comfort from a single system. High-efficiency heat pumps can lower the cost of keeping your home completely comfortable all year. Both, Goodman and Amana brands, offer full lines of heat pump systems, so you are certain to find the perfect system to fit your budget. For the greatest energy-efficiency savings, select a heat pump system with the highest SEER and HSPF ratings.

Quality Features

- Up to 18 SEER Efficiency/9.5 HSPF
- High-Efficiency Scroll Compressor
- SmartShift™ Defrost Control
- Compressor Sound Cover
- Liquid Line Accumulator
- Crankcase Heater
- Discharge Muffler
- Chlorine-free R-410A Refrigerant
- Steel Louver Coil Guard
- ...and more!

Ramp Up with Modulating Multi-Speed and Single-Speed Gas Furnaces

Goodman® Brand Gas Furnaces

Goodman brand gas furnaces can deliver warm, money-saving indoor comfort year after year to your home. Modulating, variable and multi-speed furnaces can provide enhanced indoor comfort by slowly ramping up to your thermostat setting rather than simply turning on at full speed. This alleviates the 'cold air blow' often associated with single-speed furnaces.

10 YEAR **UNIT REPLACEMENT LIMITED WARRANTY***

LIFETIME **HEAT EXCHANGER LIMITED WARRANTY***

10 YEAR **PARTS LIMITED WARRANTY***

*Complete warranty details available from your local dealer or at www.goodmanmfg.com. - Super-Efficient Blower Motors
- Self-Diagnostic Control Board
- ...and more!

Amana® Brand Furnaces

Without question, one of the most critical parts of any gas furnace is the heat exchanger. That's why we have invested so much time designing, engineering and manufacturing a heat exchanger that is efficient and has a long service life.

Tubular innovation

Amana brand engineers pioneered and perfected the tubular heat exchanger design. You see, not all tubular designs are created equal. The Amana brand's stainless steel Million-Air Heat Exchanger has the benefit of superior materials and unique technologies that makes it amazingly durable.

*Complete warranty details available from your local dealer or at www.Amana-hac.com. - Efficiency Rating up to 96% AFUE
- Modulating- and Variable-Speed Models
- Select Models are ComfortNet™ Communicating Systems compatible
- Million-Air™ Stainless-Steel, Dual-Diameter Tubular Primary Heat Exchanger
- Stainless-Steel Secondary Heat Exchanger
- ... and more!

Wrinkle-Bend Technology
for **Greater Efficiency**

Commercial Heat Pumps

Goodman® brand three-phase commercial heat pumps use chlorine-free refrigerant. The exclusive design of the louvered top helps to deliver operating sound levels that are among the lowest in the industry.

All units are covered by a standard 5-Year Parts Limited Warranty.

Reliability features include an energy-efficient compressor, factory-installed bi-flow filter drier, crankcase heater and more. For ease of installation all units feature service valves with sweat connections and easy-access gauge ports.

GPG Commercial Packaged Gas/Electric Units

A packaged Gas/Electric unit provides energy-efficient cooling and heating performance in one self-contained unit. Units are suitable for ground-level or rooftop installations.

Packaged air conditioners efficiently keep you cool in the summer, and gas furnace/air conditioner packaged products add the warmth of cozy gas heat in the winter. All packaged systems offer the legendary quality and affordability associated with the Goodman and Amana® brand.

Commercial Dual Fuel Heat Pumps

Built for performance, the Goodman and Amana brand Packaged Dual Fuel Systems deliver up to 14.5 SEER/8.0 HSPF and 80% AFUE efficiency ratings. And these units are loaded with features including a high-efficiency scroll compressor, R-410A chlorine-free refrigerant, a unique tubular heat exchanger and more. Installation is easy, one roof curb fits all Goodman and Amana units. The units are configured for either horizontal or downflow applications and have convenient access panels.

ComfortNet™ *Communicating* Control System

The ComfortNet™ Communicating Control System continuously monitors itself for optimum performance. If it senses a problem developing, the touchscreen control Home Screen Display will indicate “Call for Service” and “CHECK” (i.e., Furnace Heat Pump, Air Conditioner, Air Handler) to identify an equipment fault. This prompts the end user to contact a qualified service technician.

The ComfortNet Communicating Control System works with Goodman® and Amana® brand HVAC products and systems. Look for the ComfortNet Compatible identification.
