AND VALUE

RELIABILITY, EFFICIENCY AND AVAILABILITY

QUALITY YOU CAN DEPEND ON
The heart of comfort

The award-winning design of the primary heat exchanger in the Franklin brand GME8 is unique. It’s constructed from tubular aluminized-steel and formed into a dual diameter configuration.

Furthermore, the use of wrinkle-bend technology results in an extremely durable heat exchanger. A heat exchanger often is considered the essential component of any gas furnace. Additionally, this gas furnace has a stainless-steel secondary heat exchanger. This combination offers one of the best levels of reliability, durability, and efficiency you’ll find within the Franklin brand.
Outstanding warranty protection

* Complete warranty details available from your local dealer or at FranklinHVACSystems.com. To receive the 10-Year Unit Replacement Limited Warranty, Lifetime Heat Exchanger Limited Warranty (good for as long as you own your home), and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

- Aluminized-steel tubular primary heat exchanger
- Energy-saving, quiet four-speed circulator motor (EEM)
- Electronic ignition control with DualSaver™ technology
- Two-stage gas valve
- Durable Silicon Nitride igniter
- Electronic control board with self-diagnostics
- All models comply with California NOx emissions standards
- Corrosion-resistant vent blower
- Thermally insulated cabinet – The fully-insulated cabinet means air leakage of less than 2% to maximize heat transfer efficiency and lower blower noise.
Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that’s the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the Franklin brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the Franklin brand you can rest assured that all Franklin brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the Franklin brand you should know that they have determined that this brand is the best for you, your family and your home.
