

Air Conditioning & Heating

GPG14M

PACKAGED GAS/ELECTRIC UNIT

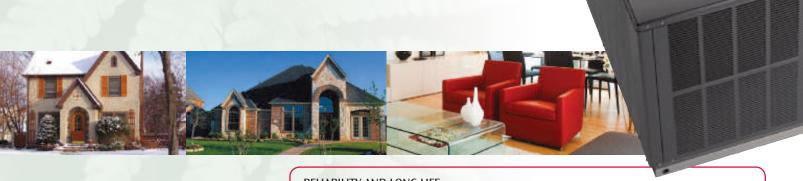

Air Conditioning & Heating

COMPACT, ALL-IN-ONE UNITS HELP SAVE VALUABLE SPACE

Keep your family in energy-efficient comfort for years to come. The Goodman® brand GPG14M Packaged Gas/Electric Unit provides value and cutting-edge technology to homeowners and small businesses, while helping to lower energy bills as compared to lower SEER units. Plus, our extensive product offering ensures that you get the right system for your specific cooling and heating needs.

COMFORT. SAVINGS. PERFORMANCE.

Goodman brand packaged units sit on the ground or rooftop outside your home or business and deliver quiet, year-round cooling and heating comfort from a single, self-contained unit. The energy-efficient GPG14M Goodman brand Packaged Gas/Electric Unit operates as an electricity-powered air conditioner during the summer, and a gas-fueled furnace during winter. All units come fully charged and tested—direct from the factory.

EXCEPTIONAL QUALITY

You can depend on well-designed, top-quality, thoroughly tested products.

Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

RELIABILITY AND LONG LIFE

One of the most critical components of a packaged gas/electric unit is the heat exchanger. Our unique, aluminized-steel tubular heat exchangers provide incredible durability and heating capacity. Additionally, the Goodman brand GPG14M Packaged Gas/Electric Unit utilizes a reliable direct-spark ignition system and integrated controls, plus a combination redundant gas valve and regulator for further safety and reliability.

Our GPG14M Packaged Gas/Electric Unit also boasts a high-performance, energy-efficient compressor, which operates in tandem with our all-aluminum evaportor coil — a single metal solution that is designed for enhanced durability and performance. These high-quality components together cool your home effectively, while saving you money on your energy bills as compared to lower SEER units.

IMPRESSIVE FEATURES AND BENEFITS:GOODMAN® BRAND GPG14M

ENERGY-EFFICIENT PACKAGED UNIT

- Energy-efficient compressor with internal relief valve
- Multi-speed ECM blower motor
- R-410A chlorine-free refrigerant
