Energy-Efficient Packaged Air Conditioner

APC14H | APC14M

Features to be proud of:

Energy Efficiency

Energy efficiency equates to cost savings. An Amana brand APC14H and APC14M Packaged Air Conditioners offer up to 15 SEER performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the cooling efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Compared to lower SEER units, an Amana brand packaged air conditioner can provide significant savings on your electric bill.

Quiet Comfort

Many homeowners may think the best packaged air conditioners are not seen or heard. To minimize operating sounds, we've combined quiet compressor technology with a high-density foam sound cover, plus a fully-insulated blower compartment to provide unobtrusive performance well below those of air conditioners not equipped with these noise-reduction measures.

An enhanced level of comfort before and after your purchase

When it's time for a new indoor comfort system, you shouldn't have to sweat the decision of which manufacturer to choose. The legendary Amana brand, trusted by generations for its performance and reliability, gives you one less thing to worry about. Choose one of our packaged air conditioners with confidence, knowing you're getting the world-class engineering and good ol' American craftsmanship you've come to expect from the Amana brand.

Efficiency and longevity make this the total package

No matter which energy-efficient Amana brand packaged air conditioner you choose, you'll enjoy years of cost-effective, worry-free indoor comfort from a single, self-contained unit. Featuring quick and easy installation, as well as limited warranty* protection, our packaged air conditioners can deliver cooling capacity from two to five tons and a Seasonal Energy Efficiency Ratio (SEER) of up to 15.

You'd be hard-pressed to find a better compressor

Perhaps the most important component in an air conditioner in terms of cooling efficiency and performance is the compressor—the heart of your packaged comfort system. Amana brand APC14H and APC14M Packaged Air Conditioners feature energy-efficient compressors.

*The security of the Amana brand's amazing limited warranties**

To truly seal the deal, Amana brand packaged air conditioners are backed by one of the best warranties* in the industry. The longevity of premium Amana brand products combined with this excellent warranty* coverage offer you a level of purchase protection that's the stuff of legend.

LIMITED WARRANTY* PROTECTION

*Complete warranty details available from your local dealer or at www.amana-hac.com. To receive the 2-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

EXTENDED SERVICE PLANS AVAILABLE

For even greater peace of mind, ask your dealer or visit our website at www.amana-hac.com for more details about AsureSM, an affordable Parts and/or Labor Extended Service Plan for your entire Amana brand HVAC system.

The **Amana** brand APC14H and APC14M Packaged Air Conditioner advantages:

- ✔ **Efficient Cooling Capacity** – 5 millimeter (select models) refrigeration grade premium copper tubing and aluminum fin condenser coil configuration delivers outstanding heat transfer properties.
- ✔ **All-Aluminum Evaporator Coil** – A single metal solution that is designed for enhanced durability and performance.
- ✔ **Comfort Speed™ Technology** – Designed to automatically adjust output based on cooling demand – full, 100% capacity for extreme temperatures, and reduced capacity for milder days. A system with **Comfort Speed** technology may lower your energy costs when compared to a single-speed unit that only runs at 100% on or 100% off.
- ✔ **Heavy-Gauge Galvanized Steel Enclosure with Powder-Paint Finish** – Protects your system from extreme outdoor elements.
- ✔ **Fully-Insulated Blower Compartment** – Designed for quiet performance. Panels are conveniently located to provide easy access.
