## Franklin® brand Heat Pump HIGH-EFFICIENCY COMPRESSOR

### COMFORT. SAVINGS. PERFORMANCE.

#### Enjoy the comfort of a Franklin brand heat pump

Beat the summer heat and winter cold with a **Franklin** brand GSZC18 R-410A Heat Pump – a unit that provides you with high-efficiency, reliable performance and quiet operation. This heat pump's worry-free operation and outstanding features add up to outstanding comfort and energy-saving value compared to lower SEER units.

#### Experience Quiet Comfort

You can be assured that your **Franklin** brand heat pump will provide you with quiet cooling all year long. To minimize operating sounds, we've acoustically engineered our systems with enhancements that include a compressor sound-reduction cover made of high-density foam and a specially-designed wire discharge grille. Additionally, the two-speed operation of the condenser fan motor allows your outdoor fan to run more often at a lower speed.

### Energy-saving efficiency with the **Franklin** brand

When properly matched, your **Franklin** brand GSZC18 Heat Pump offers up to 19 SEER high-efficiency performance. "SEER" stands for Seasonal Energy Efficiency Ratio, a measure used by the U.S. Department of Energy to rate the efficiency of air conditioners and heat pumps. The higher the SEER, the greater the efficiency—and the lower the operating cost. Your **Franklin** brand GSZC18 Heat Pump also can provide high-efficiency heating performance up to 10 HSPF (Heating Seasonal Performance Factor).

**Talk to your Franklin brand dealer about opportunities to optimize the efficiency of your new unit.**

### Commitment to quality engineering

When your new heat pump is paired with a **Franklin** brand gas furnace or air handler with **ComfortBridge** communicating technology, performance data from the split system is gathered and used to make automatic adjustments that may help reduce the amount of energy used to cool your home.

Always in pursuit of innovative ideas, our engineers have designed **ComfortBridge** communicating technology to help your entire HVAC system cost-effectively operate at peak performance – providing consistent energy-efficient home comfort. **ComfortBridge** communicating technology works with any single-stage thermostat to help create customized indoor comfort specifically for you and your family.

# VALUE AND QUALITY

## GSZC18 IMPRESSIVE FEATURES AND BENEFITS

### Outstanding warranty\* protection

\* Complete warranty details available from your local dealer or at [FranklinHVACSystems.com](http://FranklinHVACSystems.com). To receive the 10-Year Unit Replacement Limited Warranty, Lifetime Compressor Limited Warranty (good for as long as you own your home) and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

### Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

- **ComfortBridge Technology** – Continuously monitors system performance for customized indoor comfort.
- **CoolCloud™ HVAC app** – Enables qualified technicians to connect, configure and diagnose select HVAC systems quickly and accurately.
- **Copeland® CoreSense™ Diagnostics** – Advanced diagnostics constantly monitor your heat pump system, reducing failures and pinpointing trouble spots for a fast repair.
- **SmartShift® Technology** – Specialized time-delay defrost technology allows for a reliable, quiet and smooth transition when units enter defrost mode.
- **Factory-Installed Bi-flow Liquid Line Filter Drier** – Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.
- **Quiet Operation** – An acoustically engineered sound control blanket helps reduce noise levels compared to units without sound control blankets.
- **Heavy-Gauge, Galvanized Steel Enclosure Cabinet** – A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.

# Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
