QUALITY YOU CAN DEPEND ON

GSX14

Franklin® brand Air Conditioner ENERGY-EFFICIENT COMPRESSOR

COMFORT. SAVINGS. PERFORMANCE.

Enjoy the comfort

You can count on your **Franklin** brand GSX14 Air Conditioner to keep you cool on even the hottest summer days. Your **Franklin** brand air conditioner starts with a high-performance compressor that operates in tandem with our high-efficiency coil. The coil is made of rifled refrigeration-grade copper tubing and corrugated aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively.

Quiet you can count on

We know that the last thing you want to hear at night is a noisy air conditioner starting up. So, we build our **Franklin** brand GSX14 Air Conditioners with sound-dampening features that help ensure that your cooling system doesn't interfere with a good night's sleep. We rely on a quiet condenser fan system – a three-bladed fan and a unique louvered sound-control top – to reduce fan-related noise. Your **Franklin** brand GSX14 Air Conditioner will keep your home cool and comfortable, year after year.

Energy efficiency

As the owner of an energy-efficient **Franklin** brand GSX14 R-410A Air Conditioner, you have made one of the best purchasing decisions possible in the HVAC marketplace. We strive to build heating and air-conditioning equipment that offers high performance, energy efficiency, durability, and an environment-complementing design – all at an affordable price. In particular, your **Franklin** brand GSX14 Air Conditioner will provide you with reliable cooling at money-saving energy efficiency levels as compared to lower SEER air conditioner units.

Talk to your Franklin brand dealer about opportunities to optimize the efficiency of your new unit.

Smaller is smarter

Franklin's 5mm copper tube condensing coil design optimizes the heat transfer ability of R-410A refrigerant compared to standard 3/8" tubing.

Long ago the HVAC industry determined that the combination of copper tubing and aluminum fins provided the most efficient transfer of thermal heat available.

Today, the **Franklin** brand has improved upon this industry standard by making the condenser coil copper tubing smaller and smarter. The result is a air conditioner unit that can offer high efficiency, use less refrigerant, and deliver money saving and energy-saving comfort to you for years and years.

VALUE AND QUALITY

GSX14 IMPRESSIVE FEATURES AND BENEFITS

Outstanding warranty* protection

* Complete warranty details available from your local dealer or at FranklinHVACSystems.com. To receive the 2-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

- **Energy-Efficient Compressor** – Designed to provide years of reliable cooling comfort, it provides up to 15 SEER cooling performance for lower energy bills compared to lower SEER compressors.
- **Single-Speed Condenser Fan Motor** – With advanced fan design, it provides dependable, quiet airflow across the condensing coil.
- **Efficient Cooling Capacity** – Five millimeter, refrigeration-grade premium copper tubing and aluminum fin condenser coil configuration deliver outstanding heat transfer properties with R-410A, chlorine-free, refrigerant.
- **Heavy-Gauge, Galvanized Steel Enclosure Cabinet** – A louvered cabinet protects the coil, while its appliance-quality, post-paint, baked enamel finish protects your system from outdoor elements.
- **Factory-installed In-Line Filter Drier** – Protects the refrigerant system from dirt and moisture for longer service life compared to units without filter driers.

Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
