QUALITY YOU CAN DEPEND ON

GPG16 / GPG14M

Franklin® brand Packaged Gas/Electric Units ENERGY-EFFICIENT COMPRESSOR

COMFORT. SAVINGS. PERFORMANCE.

Keep your family in energy-efficient comfort for years to come.

The **Franklin** brand GPG16/GPG14M Packaged Gas/Electric Units provide value and cutting-edge technology.

Exceptional quality

You can depend on well-designed, top-quality, thoroughly tested products.

Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

Compact, all-in-one units help save valuable space

Franklin brand packaged gas/electric units provide premium comfort and technology to homeowners while helping to lower energy bills as compared to lower SEER units.

Franklin brand packaged units sit on the ground or rooftop outside your home and deliver quiet comfort from a single self-contained unit. A high-efficiency **Franklin** packaged gas/electric unit operates as an electricity-powered air conditioner during the summer, and a gas-fueled furnace during the winter. **Franklin** units come fully charged and tested – direct from the factory. Plus, you have the satisfaction of knowing your **Franklin** brand unit uses chlorine-free R-410A refrigerant.

Talk to your **Franklin brand dealer about opportunities to optimize the efficiency of your new unit.**

Reliability and long life

One of the most critical components of a packaged gas/electric unit is the heat exchanger. Our aluminized-steel tubular heat exchangers provide incredible durability and heating capacity.

Additionally, the **Franklin** brand GPG16/GPG14M Packaged Gas/Electric Units utilize a reliable Direct-Spark Ignition System and integrated controls with on-board diagnostics, plus a combination redundant gas valve and regulator for further safety and reliability. The units also boast a high-performance, energy-efficient compressor, which operates in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on your energy bills as compared to lower SEER units.

VALUE AND QUALITY

GPG16M / GPG14M IMPRESSIVE FEATURES AND BENEFITS

Outstanding warranty protection

* Complete warranty details available from your local dealer or at FranklinHVACSystems.com. To receive the 2-Year Unit Replacement Limited Warranty, 20-Year Heat Exchanger Limited Warranty (good for as long as you own your home), and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

All-Aluminum Evaporator Coil

A single metal solution that is designed for enhanced durability and performance.

Efficient cooling capacity

5-Millimeter refrigeration grade premium copper tubing and aluminum fin condenser coil configuration delivers outstanding heat transfer properties. (select models)

Multi-Speed ECM Blower Motor

Provides quiet system startup and shutdown with highly-efficient performance.

- Refrigeration-Grade Premium Copper Tubing and Aluminum Fin Condenser Coil Configuration – Delivers outstanding heat transfer properties with R-410A refrigerant.
- Heavy-Gauge Galvanized Steel Enclosure with Powder-Paint Finish – Protects your system from extreme outdoor elements.
- Fully-Insulated Blower Compartment – Designed for quiet performance. Panels are conveniently located to provide easy access.
- Self-Contained Packaged Unit – Designed for multi-position installation.

Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hardworking, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
