GPC15H

Franklin® brand Packaged Air Conditioner ENERGY-EFFICIENT COMPRESSOR

**COMFORT.
SAVINGS.
PERFORMANCE.**

Exceptional quality

You can depend on well-designed, top-quality, thoroughly tested products.

Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

Compact, all-in-one units help save valuable space

Keep your family in energy-efficient comfort for years to come. The Franklin brand GPC15H Packaged Air Conditioners provide value and indoor comfort to homeowners and small businesses while helping to lower energy bills as compared to lower SEER units.

Franklin brand packaged units sit on the ground or rooftop outside your home or business and deliver quiet, year-round cooling and heating comfort from a single, self-contained unit. The energy efficient Franklin brand GPC15H Packaged Unit operates as an air conditioner during the summer and in winter delivers electric or heat pump-generated warmth.

Talk to your Franklin brand dealer about opportunities to optimize the efficiency of your new unit.

Reliability and long life

One of the most critical components of a packaged air conditioner unit is the compressor.

Our GPC15H Packaged Air Conditioners boast high-performance, high-efficiency compressors, which operate in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on energy bills as compared to lower SEER units.

- Heavy-gauge galvanized steel cabinet with attractive architectural gray powder-paint finish
- Fully insulated blower compartment with convenient access panels
- Louvered condenser coil protection
- Energy-efficient compressor

Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
