## Franklin® brand Packaged Heat Pump ENERGY-EFFICIENT COMPRESSOR

**COMFORT.  
SAVINGS.  
PERFORMANCE.**

### Packaged heat pumps

The high efficiency Franklin brand GPH14M Packaged Heat Pump provides economical air conditioning, then, by reverse cycle, delivers economical heating during colder periods. Supplementary electric heat is added at predetermined temperatures during severe cold spells.

### Exceptional quality

You can depend on well-designed, top-quality, thoroughly tested products.

Our production facilities are focused on strict, quality-driven processes. This quality focus ensures a trouble-free installation and long product life.

### Year-Round Efficiency

When properly installed, your new Franklin brand GPH14M Packaged Heat Pump offers efficiencies that provide significant savings compared to lower SEER units.

"SEER" stands for Seasonal Energy Efficiency Ratio, which is a measurement of an air conditioner's cooling energy efficiency developed by the U.S. Department of Energy. It's a simple formula: the higher the SEER of your unit, the greater its efficiency—and the lower your operating costs.

**Talk to your Franklin brand dealer about opportunities to optimize the efficiency of your new unit.**

---

### Reliability and long life

**One of the most critical components of a packaged heat pump is the compressor.**

Our GPH14M Packaged Heat Pump unit also boasts a high-efficiency compressor, which operates in tandem with our high-efficiency coil. The coil is made of refrigeration-grade copper tubing and aluminum fins in a design that maximizes surface area. These high-quality components together cool your home effectively while saving you money on your energy bills as compared to lower SEER units.

# VALUE AND QUALITY

## GPH14M IMPRESSIVE FEATURES AND BENEFITS

### Outstanding warranty\* protection

\* Complete warranty details available from your local dealer or at [FranklinHVACSystems.com](http://FranklinHVACSystems.com). To receive the 2-Year Unit Replacement Limited Warranty and 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

---

### Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

---

- Chlorine-free R-410A refrigerant
- All-Aluminum evaporator coil
- High-efficiency compressor
- Convertible airflow: horizontal or downflow
- Totally enclosed, permanently lubricated condenser fan motor
- Multi-speed ECM blower motor
- Quality powder-paint finish resists fading and corrosion
- Copper tube/aluminum fin coils
- Electric heat kit available as a field-installed accessory
- Fully-insulated blower compartment for quiet operation
- Meets California Low-NOx emissions requirements

# Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
