## Franklin® brand Evaporator Coils

**COMFORT.  
SAVINGS.  
PERFORMANCE.**

**Enjoy the comfort and efficiency**

### **All-Aluminum Evaporator Coil**

Built with grooved tubing for durability and efficient cooling performance. Cased or uncased models are available. Cased models are available for upflow configuration only.

### **High-Temperature Thermoplastic Drain Pan —**

drains away condensate without danger of rust.

## **A comfortable value**

A Franklin brand evaporator coil can help ensure your cooling system provides reliable, efficient comfort with good performance. Available in sizes to match your new or existing system from 1.5 to 5 tons, evaporator coils are compatible with chlorine-free R-410A refrigerant. Every unit is helium pressure-tested during construction to ensure against leaks. For replacement or new construction, a Franklin brand evaporator coil will provide efficient comfort to your family for years.

**Talk to your Franklin brand dealer about opportunities to optimize the efficiency of your new unit.**

## **A single metal solution**

The ALL-ALUMINUM evaporator coil is constructed from aluminum tubing, fins and panels giving you a single metal solution for outstanding, time-tested, heat transfer performance properties.

If you're looking for an evaporator coil that offers enhanced durability, coupled with enhanced performance, this is the product for you.

# VALUE AND QUALITY

## IMPRESSIVE FEATURES AND BENEFITS

### Outstanding warranty\* protection

\* Complete warranty details available from your local dealer or at [FranklinHVACSystems.com](http://FranklinHVACSystems.com). To receive the 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

- **All-Aluminum coils** – enhanced durability in a single metal solution. Special grooved tubing provides efficient cooling and durability for long-lasting comfort.
- **Factory-mounted thermal expansion valve (TXV)** – simplifies installation and controls refrigerant flow for efficient cooling (Model CAPT).
- **High-temperature thermoplastic drain pan** – handles condensate for years without rusting.
- **Insulated metal casing** protects the coil from damage and provides for easy installation to the air handler.

# Never heard of the Franklin brand?

We're not surprised.

Many homeowners are not aware of the brand or efficiency level of their heating and cooling system. As long as the system is operating and providing reliable heating and cooling everything is fine. Then one day the system stops working. And that's the same day that homeowners briefly reacquaint themselves with their heating and cooling unit!

You may not have heard about the **Franklin** brand of residential heating and cooling systems because the brand is not a nationally advertised brand. In addition, most homeowners purchase a central heating and cooling system just once or twice in their lifetime. Even though you may not have heard of the **Franklin** brand you can rest assured that all **Franklin** brand products are hard working, and are designed to deliver energy-efficient performance for many, many years.

Your local heating and cooling contractor has access to many brands that they can offer, so when they recommend the **Franklin** brand you should know that they have determined that this brand is the best for you, your family and your home.
