

THIS WAY TO PTAC PARADISE

With the **Eden™** energy management system and **Amana® Brand** PTACs, you won't believe the time and money you save.

The **Eden** energy management system works with any PTAC units you have on your property. **HOWEVER**. If you pair **Eden** with **Amana Brand** PTACs, it unlocks a new level of energy management options.

IT COMES DOWN TO TWO KEY BENEFITS:

1 QUICK CHANGE

Let's say you have 110 **Amana Brand** PTACs on your property, and you want to set them all to have the indoor fan run when the DigiAir Make-Up Air Module runs.

THE OLD WAY

You send someone room-to-room to manually make the change, taking about 5 minutes per room. Across all those units, this amounts to a whole lot of time.

THE EDEN WAY

You launch **Eden** Concierge, select all 110 units, change the setting and save your changes.

BOTTOM LINE

Eden lets you change settings and configurations for your **Amana Brand** PTAC units in minutes, not hours.

2 UNIT HEALTH

The last thing you want is to check someone in, only to learn that their in-room PTAC unit isn't cooling properly. If only there were a way to preventive maintenance details ahead of time.

THE OLD WAY

It used to be impossible to gauge PTAC unit health outside of hanging in the room and testing.

THE EDEN WAY

86 writeable and 193 readable points flood in on your **Amana Brand** PTAC units. More information, run times and thermostat data for preventive maintenance. Not to mention health feedback and timely PM and repair notifications.

BOTTOM LINE

Eden makes **Amana Brand** PTACs smarter than ever, letting you control all units remotely with ease.

These days, everyone is short-staffed and existing staff is stretched thin. **Eden** lets you get a whole lot more done, in less time and with less manpower.

To learn more about the magic that happens when you pair **Eden** with **Amana Brand**, call **800.647.2982** or visit **AMANA-PTAC.COM/EDEN**.

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
