

PRECISE COMFORT AND VALUE

Residential Product Linecard 12.23

We believe in American dependability.
Liberty brand units are designed,
engineered and assembled in the U.S.A.

Visit www.libertyhvac.com for full product line information.

Liberty brand products are:

- Easy to sell
- Easy to install
- Easy to service

Additional information

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.

Designed to be easy to sell, install and maintain, Liberty brand residential gas furnaces, air conditioners, heat pumps and packaged products are recognized for both their outstanding performance and value. Featuring the highly sought-after combination of quality and affordability, our full line of Liberty brand products are attractive to homeowners and dealers alike.

Why does the Liberty brand value proposition resonate so well with those who install and maintain our HVAC systems, as well as those who enjoy the indoor comfort they provide? We believe it's the unique blend of reliability, dependability, availability, efficiency, performance and price that we deliver. For complete information on the Liberty brand, be certain to visit:

* Complete warranty details available from your local dealer or at www.Libertyhvac.com. To receive the Lifetime Compressor Limited Warranty (good for as long as you own your home), 10-Year Unit Replacement Limited Warranty or 10-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec. The duration of warranty coverages in Texas and Florida differs in some cases.

Communicating control system keeps it simple

Ask your dealer for additional information or visit www.comfortbridge.com

What is ComfortBridge™ Technology?

The revolutionary ComfortBridge technology is factory-installed into select gas furnaces and air handlers to help your entire HVAC system cost-effectively operates at peak performance — providing consistent energy-efficient home comfort. Simply put, the system's communicating technology that is typically located in a thermostat was moved from the wall and securely placed into the HVAC equipment!

How does ComfortBridge technology benefit you?

The ComfortBridge technology smart home algorithm gathers HVAC system performance data and uses it to automatically make adjustments that may reduce the amount of energy used to heat or cool your home. And, you're not locked into one specific thermostat just because you installed a new HVAC system. The versatility of ComfortBridge technology gives you options.

Liberty brand heat pumps for performance you can count on

If you think that the performance of a heat pump is equal to the sum of its parts, then you'll be amazed by Liberty brand R-410A heat pumps. Liberty brand heat pumps contain these standard features:

- Crankcase Heater
- Suction Line Accumulator
- Discharge Muffler
- Compressor Sound Blanket (Select Models)
- Low Pressure/Loss of Charge Switch
- SmartShift® Defrost Technology

Our continuing commitment to quality products may mean a change in specification without notice.
