

YOUR PTAC, YOUR THERMOSTAT: FIND THE RIGHT ONE FOR YOU

Every **Amana**® brand redesigned J and K series PTACs come out of the box with wired and wireless thermostat capability. For the **Amana** DS01G and DSA02NO thermostats, utilize the integrated RF antenna and simple button-push pairing. For the **Amana** brand hardwired thermostats (or existing hardwired thermostats), we include the connection hardware needed.

WHY THERMOSTATS MAY BENEFIT YOU

More accurate room temperature reading

- Installed away from window, wall and direct sunlight
- Flexibility on location to avoid inaccuracies
- Occupancy sensing (DS01G)

Cost Benefits

- Reduced control door damage
- Energy Management integration capabilities (DS01G)
- Reduced accessory/installation costs (**Amana** brand J & K Series and/or DS01G/DSA02NO thermostats)

User-friendly

- Flexibility on location to improve room utilization
- Modern look and feel, like a home
- Easier and cheaper to replace than an entire PTAC
- May help reduce noticeability of PTAC in the room
- No need to cover on-board touchpad when using a thermostat (**Amana** brand J & K Series)
- Industry construction trending towards wall thermostat control in-room
- Flexibility to utilize both wired and wireless solutions to match property needs
